Comments of Ben Bramlett-K7BEN.
I agree whole-heartedly with any petition that intends to remove Morse code as a
requirement to receive any class of Amateur Radio license. Morse code is a
barrier to many volunteers who want to use their equipment to serve government
and non-profit agencies. The elimination of Morse code testing would allow
licensees to use their radios to their fullest potential. This provides the
served agencies with more seamless and long-distance communications.

Respectfully submitted,
Ben Bramlett – K7BEN
